Turnaround-Time	20 minutes	20 minutes
Sample Collection	Nasal Swab	Finger stick
Results	+/- SARS-CoV-2	+/- IgG and IgM
Detection Window after infection	3-10 days	1-3 weeks
Price	\$75.00	\$55.00

### DRIVE-UP - REGISTER - GET TESTED

How it works?

#### Step 1: Registration

Call the laboratory for an appointment to get scheduled and registered. Upon arrival, donors are to stay in their car and call the laboratory (724.691.0263) to notify a SteelFusion Covid-19 team member you have arrived. Then, the donor will be invited into the collection facility.

#### Step 2: Collection

Using freshly gloved hands and full PPE, the collector will collect the appropriate specimen for testing. The donor will be instructed to exit the collection facility and return to their car and leave the testing site.

#### Step 3: Timed Testing

Now its time for the laboratory professional to get to work. Testing is conducted at our high-complexity certified laboratory by trained professionals.

What to expect?

#### Step 4: Results and Reports

Results are simultaneously sent to the applicable State's Department of Health and the Centers for Disease Control through our secure web portal. The laboratory reports are texted to the donor's phone number used at registration.

\*RT-PCR testing is required by some employer's and institutions. All results should be consulted with your primary physician.
